

WIDE REVOLT IN MEXICO

Unrest from End to End of
the Republic

CRUSHING OF MOVEMENT

Means Prolonged Stay for Our Troops—
President Diaz Tentatively Holds
Out Promise of
Reforms.

Boston, March 17.—In reviewing the Mexican situation, The Transcript says: The widespread nature of the unrest which fills Mexico may be gauged from the various points wherein bands of rebels are operating. The movement is strongest of course in the North. Chihuahua may be said to be controlled by the insurgents, while Coahuila to the East, and Sonora to the West, are scenes of great rebel activities. Still further West, of course, is lower California, where the independent Socialist-republic "army" is operating. Dispatches also mention action by insurgents on Zacatecas, halfway down to Mexico City. Guerrero, on the Pacific coast, lying to the south of the capital, and Yucatan, at the opposite end of the republic from Chihuahua. It will be seen, therefore, that the trouble spreads from one end of Mexico to the other, and this state of affairs doubtless accounts for the unwillingness of the Mexican government to send the bulk of its troops to the extreme north. There seems to be little prospect that the Mexican forces now in the northern states will suffice to subdue the revolt, so that a prolonged contest can hardly be avoided. This means, of course, that our troops will make a long stay on the border. The reports of the serious situation in which the city of Chihuahua finds itself are borne out in a report to the American board of commissioners for foreign missions, which says that communications have been cut off since March 1, and that since that date no train has entered or left the city. It is further said that rioting is feared. Some intimations are given that President Diaz is making tentative advances to his rebellious people. This is to be inferred from the report that the City of Mexico that the president is planning to divide some of the huge estates held by wealthy men among the common people. Senor Limantour's admission that Mexico has asked an explanation of our mobilization is regarded as showing that Mexico was considerably roused by our action, more so than was at first believed. A boundary dispute over the territory where the Americans Blatt and Converse, now in a Mexican prison, were taken, may delay their release indefinitely. Mexico claims that the tract is in Mexico, while the United States claims it is part of Texas.

TO END THE REVOLT.

Belief That Limantour and Madero Have
Come to Terms.

New York, March 17.—The sudden departure from New York of Senor Limantour, the Mexican minister of finance, after a week of conference and negotiations, the precise nature of which has not hitherto been clear, is now explained by the understanding that he has succeeded in affecting a tentative plan by which substantial reforms are expected to be immediately put in force by the Mexican government, and the leading insurgents, being satisfied, are to aid in restoring peace. The presence here at the hotel Astor of Senor Madero,

GAS, INDIGESTION AND HEARTBURN GO

Out-of-order Stomachs Feel Fine Five
Minutes After Taking a Little
Diaspepsin, Which Is Absolutely
Harmless.

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diaspepsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach?

People with weak stomachs should take a little Diaspepsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach or belching of undigested food, headaches, dizziness or sick stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diaspepsin.

Go to your druggist and get a 50-cent case of Pape's Diaspepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

the father of the provisional president, together with his three sons (brothers of the provisional president); the fact that Limantour has been through three generations of the confidential adviser of the Madero family, and the fact that Limantour and the senior Madero have been in conference, while important messages have been going back and forth from the finance minister to Mexico City, added significance to the situation. While in Paris, before he left for New York, Limantour declared through an Associated Press interview his belief in the need of a number of reforms to meet the wishes of the insurgents. When leaving here Wednesday, he said: "Mistakes have been made, perhaps some of them serious, but this fact is not peculiar to Mexico. Many reforms have been brought about in recent years. Others of even greater importance are under way and may be made public in the near future." Simultaneously a dispatch from Mexico announces that President Diaz, in a conference with a number of citizens of Matamoros, assured them that he was adopting certain of Limantour's suggestions of reforms. Senor Limantour bears with him a full exposition of the demands of the insurgents, which it is hoped will be acceptable to the Mexican government and made the basis of peace.

SITUATION IN NORTH SERIOUS.

Test of Mexican Government's Ability
to Maintain Order Will Be Shown.

Washington, March 17.—Advises from many sources report a condition bordering upon anarchy in some of the Mexican states and that the situation in the north is growing worse. The destruction of some forty miles of railroad by an band under Creighton, the American, is pointed out as showing how easy it is for a very few outlaws to stop traffic in any part of the republic where they may choose to operate. One of the tests to which the Mexican government will be put by the United States is its ability to afford protection to the repair gangs who must be sent out to mend tracks and bridges and restore rail communication. It is the purpose of the United States government to allow the Diaz government full opportunity to exert its authority throughout Mexico to restore order, but it is an open secret in Washington that if conditions continue as they are now decisive measures may be thought necessary to prevent immense loss to property and life.

SCORES DIAZ ELECTION.

If It Was Legal, Rebel Agent Asks,
Why Has There Been Revolt?

Washington, March 17.—Dr. Vasquez Gomez, head of the confidential agency here of the Mexican revolutionists, has issued a statement in reply to the contention of Senor Limantour, Mexican minister of finance, that President Diaz was legally returned to the presidency by the will of the people. Dr. Gomez declared that it was significant that in twenty of the twenty-seven states in Mexico the people were in arms as in protest against the election in which President Diaz triumphed. He added that if President Diaz really wished to obey the will of the people and avoid complications with foreign governments he should resign immediately. Such action alone, he said, would restore tranquility in the republic.

VENERABLE FRANK WORK DEAD.

New York Multi-Millionaire Was Father
of Mrs. Burke Roche.

New York, March 17.—Frank Work, the multi-millionaire railroad man, and father of Mrs. Burke Roche, died at his home here yesterday of pneumonia. He was ninety-two years of age. It is understood that he leaves an estate amounting to \$20,000,000.

An only son, George Work, died in Switzerland in 1890, and this was a great shock to Mr. Work and his health after that began to fail. His New York home formerly was a mansion in Madison square, North, and of late had been at 13 East Twenty-sixth street. He also had an estate in Newport. His daughter made two marriages, both against his wishes. One husband was Francis Burke Roche, a young English baron. Later she married Aurel Estonyl, an Austrian, and following a divorce she called herself by her first husband's name. In addition to his daughter, Mr. Work is survived by his grandchildren, Maurice and Francis Burke Roche, both of whom attended Harvard college, and Mrs. W. S. Burden of New York and Newport, formerly Miss Cynthia Roche.

MANY FAVOR GREY'S PLAN

Peace Suggestion Arouses
Much Discussion

IT MAY NOT END WAR

But Worthy of Consideration—It Finds
Sympathetic Echo in Germany—May
Help President Taft's Plan
for Treaty.

London, March 17.—Sir Edward Grey's speech on Anglo-American arbitration continues to be discussed with undiminished vigor by the press and public. The foreign secretary will speak at the banquet of the International Arbitration league on Friday, when a number of ambassadors and other prominent guests may be expected to further develop his views on the subject.

The Times prints a manifesto, signed by Rev. Robert F. Horton, Rev. C. Sylvester Horne and other influential non-conformist ministers, warmly supporting Sir Edward Grey's aspiration for the conclusion of an arbitration treaty with the United States. The manifesto says: "We believe the great word coming from the heart of mankind and uttered by the spirit of God has been spoken."

The Daily Express publishes the following views:

Sir Gilbert Parker—I don't think a peace treaty on Sir Edward Grey's lines would solve the problem of war.

Ian Malcolm—Public opinion on both sides of the Atlantic will do well to give sympathetic consideration to President Taft's proposals and Sir Edward Grey's reply.

Edward Goulding—International courts for the reduction of expenditure on armaments and for the arbitrament of war are utopian and visionary. President Taft uses mere words. His action in massing troops against Mexico is an action consistent with the past policy regarding Texas and the Philippines.

Lord Halsbury—Some such treaty would tend to end competition of armaments.

Oliver Locker Lampson—It is the most practical suggestion yet made for reducing armaments.

Lord Winterton—The mobilization on the Mexican frontier is a rude reminder of things as they are, and not as they may be, but I certainly think unionists should wish for this alliance.

At a meeting of the extreme radical members of the House of Commons, among whom are those opposed to a big navy program, resolutions were adopted expressing much satisfaction over Sir Edward Grey's utterances in support of the arbitration suggestion of President Taft.
